

EXPLORE. GROW. CONNECT.

INDUSTRY INTERNSHIP

INTERNSHIPS: INNOVATION & ENTREPRENEURSHIP I

- Elective Course - 3 SCH
- Complete 15-20 hr weekly internship
- Class meets in person 6X

This course provides students with experiential knowledge of biotech startups, incubator laboratories, pharmaceutical and industrial companies, and/or research administration.

Students are exposed to various concepts, such as basic and clinical sciences, resume preparation, grant writing and management, intellectual property, technical writing, and non-disclosure agreements.

A significant requirement for the course is experiential participation with the internship site.

This course is offered as a collaboration between HSC College of Pharmacy and HSC NEXT.

- Obtain mentor approval
- Complete InfoReady application
- Review internship offerings - select top two interests
- Complete interviews
- Companies extend offers to selected candidates
